This home is close to Lake Thurmond, the activity center, two golf courses and two clubhouses, both with restaurants. I don't think it can get any better than that except when you look at the price and condition of this home. A new roof, architectural shingles, was installed in 2019. Heating air changed out in 2016. Double ovens and side by side refrigerator were replaced in 2014. Quartz countertops and a tiled backsplash certainly add to the value of this home. With a little under 1700 heated square feet, this home is perfect for those wanting to downsize. It is always interesting to see how a home has been layout and the use of space. 103 Cypress has character along with a great house plan. A split floor plan means privacy for guests, with two bedrooms on one side of the home and the master suite on the other. The owners are now using one of the guest bedrooms as a den area. The kitchen has great features with plenty of cabinet and counter space, pantry, double ovens and plenty of room for a spacious table. The appliances are white giving a very modern feel. You will even find slide out drawers in the lower cabinets. The living room has a vaulted ceiling, a gas fireplace and lots of light coming through the windows. It has access to the expansive deck giving you even more living space. Savannah Lakes Village.

The screened porch opens up to a beautiful deck with a designated seating
